

## What is ACT 139?

### Pennsylvania's Good Samaritan Law

Senate Bill 1164 was signed into law in September, 2014 as Act 139 of 2014. This legislation allows first responders, including law enforcement, fire fighters and EMS the ability to administer naloxone to individuals experiencing an opioid overdose as long as they have received the Department of Health approved online training and materials about recognizing opioid related overdoses, administering naloxone and promptly receiving medical attention. Additionally, Act 139 provides immunity from prosecution for those responding to and reporting overdoses.

### Secure Your Medications

If you are taking prescribed medication, ensure the safety of the family by keeping medication in a secure location. This will aid in preventing an overdose!
